

# MÜNCHENER BOULEVARD MÖBEL

Welcome to the world of Munich boulevard furniture. Discover the variety of our unique collections and experience the subtle difference between summer as a season and summer as a mindset.

Since 1954, we have stood for the highest quality, craftsmanship, and simply beautiful garden furniture. Our new collections are not only an expression of design and functionality but also create living dreams – places of relaxation and joy – oases where you and your loved ones can spend the most beautiful hours.

With MBM, you are not just investing in furniture – you are giving your garden style and character – with our exclusive designs that stand out through timelessness and durability.

Your team at Munich Boulevard Furniture

## TRADITION

#### MBM - Exclusive Garden Furniture Since 1954

In the heart of Munich, founded in 1954 as a manufactory in the Munich district of Schwabing, MBM has stood for top-quality garden furniture for decades. As the oldest producer of garden furniture in Germany, the company is deeply rooted in the Bavarian metropolis and traditionally places the highest value on innovation, quality, and design.

For more than 70 years, we have been developing and producing garden furniture and materials worldwide.

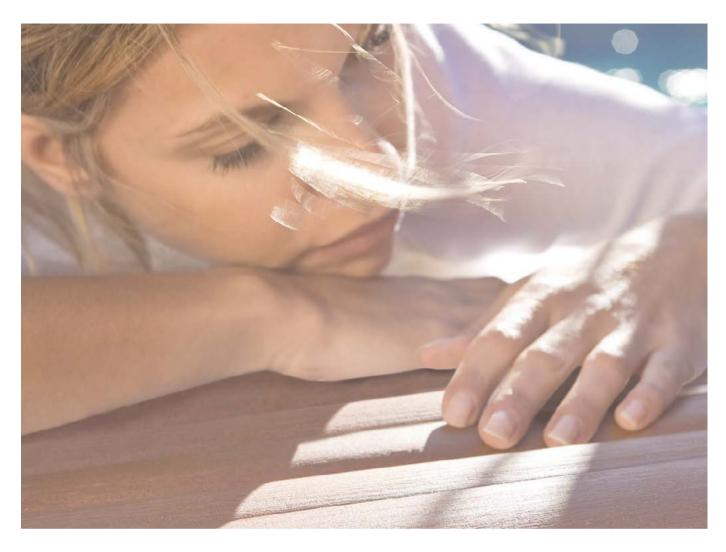

### Who loves wood will love Resysta!

To this day, our company remains true to its philosophy: Every piece of furniture is crafted with care and craftsmanship, always with an eye on the high quality standards that have been in place since the founding.

We are the inventors of Resysta, the innovative, high-quality, and exclusive teakwood alternative. Our years of expertise with this material allow for the unique production of weather-resistant, exclusive, and comfortable outdoor furniture. All parts that feel and look like wood in our design collections are made from Resysta.

Thanks to this innovative power, our entire range is guaranteed to be free of wood.

4 | **5** 

## INNOVATION

### How Resysta is changing the world.

Resysta is a high-tech material that far surpasses its natural counterpart, wood, and thus eliminates the destruction of tropical hardwoods. Resysta is primarily made from the renewable silicon found in rice husks. It is very complex to produce and requires a great deal of know-how and experience to create first-class furniture from it.

Although it is more expensive than teakwood, we exclusively use Resysta to offer you the following advantages while guaranteeing:

Resysta has an absolutely natural look and feel of wood.

Resysta is absolutely weather-resistant.

Resysta is UV-resistant and lightweight.

Color variations are in line with the naturalness of the material.

Resysta protects the rainforest.

Resysta cannot form cracks and cannot splinter.

Resysta does not grey.

Resysta is resistant to saltwater and chlorine water.

Resysta prevents moss growth and is not affected by pests.

## Sustainability

#### FOR FUTURE GENERATIONS

Within a functioning recycling loop, Resysta is made up of a very high percentage of recycled Resysta. This not only helps protect tropical forests but also sets a strong example for sustainable production and responsible action.

Resysta is a brand stands for responsibility, respect, and reliability.

### Exclusive Garden Furniture

#### Everyone their favorite spot.

A garden, terrace, or balcony is more than just space – they are living areas, retreats, and places for special moments. The art of holistic garden design lies in its harmony: Carefully coordinated dining and lounge furniture gives them the elegance of a living room, combined with the freedom of outdoor living.

We focus on values that last – with innovative, weather-resistant materials like Resysta, the teak alternative. With this, we not only set aesthetic accents but also make a promise for sustainability and longevity. Whether large open spaces or intimate retreats – our collections are a love letter to outdoor living, offering oases of relaxation. Finest details, elegant design, and uncompromising quality create individual solutions for every style and need.

Dive into the world of Resysta Furniture and experience garden furniture that withstands time and weather – with a feeling of home outdoors.

We are multiple award winners for design and quality.

## **ACCESSORIES**

#### LIKE THE STRINGS OF A VIOLIN

Like the strings of a violin, the ropes stretch across the back of the seating furniture, and the frame's shape resembles an abstract musical clef. This is the Violino series.

Discover the harmony of the lounge and dining furniture in this new collection, available in two color compositions: Forest Green and Stardust Gold!

#### ABSOLUTELY TIMELESS

Violino Forest Green combines stylish elegance with highquality materials. Its timeless design blends harmoniously into any outdoor setting, creating a relaxed atmosphere. With the reassuringly secure comfort of a mountaineering rope, Violino Forest Green invites you to linger and unwind in the open air.

## PIANO

### WOVEN LIKE WOOD

This collection appears just like that: Particularly the distinctive backrests characterize the seating furniture of the Piano series. The texture of the backrests is reminiscent of teak carving – an intricate craft – in the style of the 50s/60s.

With our design material, we bring this ancient craftsmanship into the future: it mimics wood in both appearance and feel, allowing for elegant shaping.

#### CLEAR DESIGN

The Piano collection impresses with its combination of extraordinary form and excellent functionality. Its clear design creates a harmonious balance between aesthetics and comfort. Piano is the modern symbiosis of elegance and luxury. The modular system can be freely combined and expanded.

# WIND

## STORMY RELAXATION

With Ropes stretched across its elegant backrest, this cozy armchair evokes associations with a wind chime. Thanks to its custom-made seat cushion, body-hugging shape, and smooth 360° rotation, it truly has a similar calming effect. It soothes, reduces stress, and promotes a meditative sense of relaxation through its gentle turns.

#### CLEAR DESIGN

With the WIND armchair, you experience contemporary comfort paired with a touch of Scandinavian chic. This armchair embodies modern design and exceptional comfort, becoming the centerpiece of any stylish interior.

#### WIND

Material

The frame of the Wind armchair features innovation with Resysta, a material that perfectly mimics the natural look of wood but is made from recycled plastic and rice husks. The backrest is crafted from robust, powder-coated aluminum, while the upholstery is made of weather-resistant Elegant Rope. This creates an irresistible combination of modern design and durability.

## SUMBA

### ISLAND OF DREAMS

Sumba is a truly paradisiacal place that you should experience. If it seems too far away, we have a real alternative in our collection: the Sumba armchair. A swivel chair for relaxation in the outdoor space, full of beauty and magic. Make yourself comfortable in its multi-environmentally certified, durable outdoor fabric. The ball-bearing 360° panoramic function offers you an irresistible experience between relaxation and activity.

#### DISCOVER STYLE AND COMFORT

The Sumba armchair is more than just a piece of furniture; it's a statement of modern design and functionality. With high-quality upholstery in elegant natural grey, this armchair offers unmatched seating comfort, making your relaxation moments on the terrace even more enjoyable.

The seat shell of the armchair is equipped with armrests to provide additional comfort. The grey upholstery harmonizes perfectly with the frame in Terra Teak color, giving the armchair a timeless elegance.

Resysta

Terra Teak

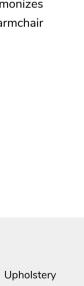

### SUMBA

Material

The upholstery of the seat shell is rather unusual for outdoor use but optimized specifically for this purpose. Moisture and dampness can escape downwards, and the seat is dry again in no time. The fabric is breathable and environmentally certified multiple times.

The elegant frame is made from sustainable Resysta, the teakwood alternative.

## IZU

### JAPANDI IN ITS MOST BEAUTIFUL FORM

Named after a Japanese peninsula, the Izu chair showcases the Japanese-Scandinavian interior style: a delicate frame made from the Teak alternative Resysta in a warm wood tone, combined with interwoven flat bands in a soft, shifting greige (a mix of gray and beige). Also discover the tables Arigato and Samoa!

#### ENJOY CAREFREE

The sturdy frame made of Resysta, resembling real wood, not only sets visual highlights but also symbolizes a sustainable lifestyle. The seat made of durable Strap in the elegant greige color combines timeless aesthetics with exceptional softness and coziness.

#### NOBLE, MATTE, AND INDESTRUCTIBLE

Puro is pure design: stainless steel, brushed matte, and elegant. Our designers have succeeded in creating a cohesive family of truly special furniture that shines just as much by the pool as it does in front of the fireplace or in a luxurious lounge. What sets this collection apart and gives it the status of a classic is the timelessness of both the material and form. By the way, Puro armrests are made from Resysta and the upholstery is crafted from the tried and tested Tex, ensuring you stay cool even in intense heat.

PURE DESIGN

The Puro collection impresses with its timeless and uncomplicated design. Its classic appeal brings elegance to any environment. It combines high-quality materials with exceptional comfort. Whether in a luxurious lounge or outdoors – Puro adds an exclusive touch to any space, both inside and out.

#### **PURO**

Material

The robust, hand-welded stainless steel frames of the Puro collection are indestructible and ensure an exceptionally long lifespan. The seating is upholstered with Tex, a dimensionally stable special fiber, for comfortable seating and long-lasting durability in outdoor use. The tabletops and armrest applications are made of Resysta, the teak alternative.

#### LOUNGE CUSHIONS

You have the choice between back cushions and wedge back cushions. While the back cushions fit on any part of the lounge, the wedge cushions require the matching variants for the specific width of the seating furniture.

Additionally, there are side cushions available for the corner modules, either left or right, which you can select based on your needs. For all furniture and cushions labeled as "left" or "right," the standpoint is taken from the perspective of the viewer standing in front of the furniture.

# ALWAYS WELL-THOUGHT-OUT

Our sunshades combine functionality and design. Whether made of aluminum or wood, they not only provide reliable protection from the sun but also make stylish statements. High-quality materials and robust craftsmanship ensure durability and stability. Perfectly coordinated with our furniture, they create a harmonious overall look for your garden, terrace, or balcony.

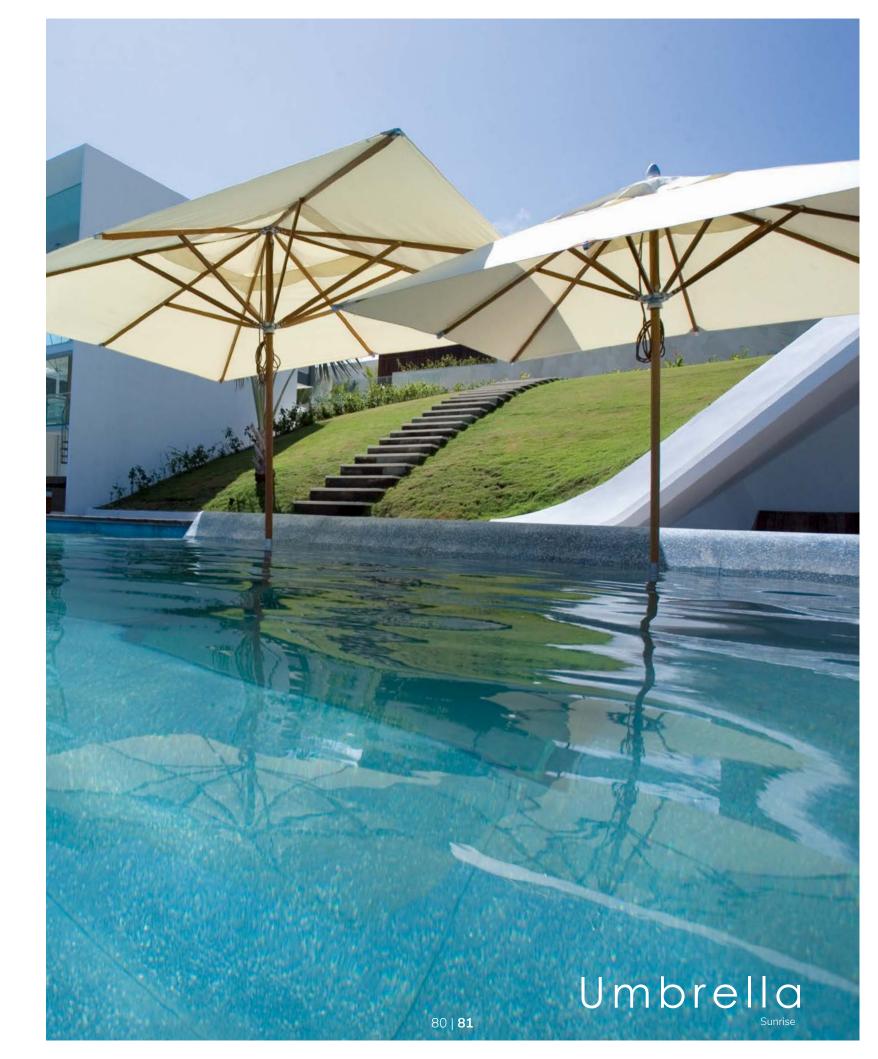

# STYLISH PROTECTION

Our umbrellas have always been a guarantee for a pleasant garden atmosphere. Comfortable to handle and elegantly designed. High-quality in line with this philosophy: the Sunrise umbrellas. In addition to a double pulley system, they feature high-quality stainless steel safety hooks and exceptionally beautiful design runners. The end of the pole and the rib ends are coated with aluminum, and each rib is individually replaceable.

# SUNRISE

aterial

The sturdy frames are available in either lightweight, powder-coated aluminum or

acacia wood. The ribs can all be individually replaced. The upholstery is made of Scotchguard 300, available in the colors Anthracite or Uni Nature.

# BRANDSTORE

Visit our showroom in the southern part of Munich: You can find our exhibition at the Taufkirchener Hofquartier – the premium shopping center offering a holistic living concept with design.

# 2,000 m<sup>2</sup> of exclusive garden furniture.

On more than two thousand square meters of indoor and outdoor space, we present our entire portfolio of exclusive garden furniture in a stylish setting. At the MBM Brandstore, you can not only experience all collections directly on-site but also touch, test, sit, and explore all the functions and features. Our team is here to assist you in choosing the perfect furniture and provide you with comprehensive, expert advice.

#### MBM-Brandstore

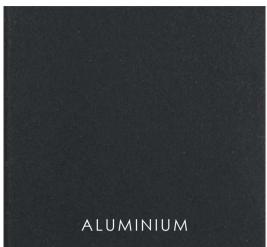

Hochstraße 21, 82024 Taufkirchen near Munich.

#### OUR MATERIALS

MBM outdoor materials combine functionality, durability, and style. They are weather-resistant, easy to care for, and environmentally friendly, making them perfect for year-round outdoor use. High-quality craftsmanship, the selective choice of raw materials, and recyclable components ensure not only appealing design and long-lasting durability but also a high level of sustainability.

Durable luxury for the outdoors: Furniture from the Resysta collection – short for Furniture Resysta Material – is made from a sustainable alternative to tropical wood. It consists of about 60% rice husks and the rest from already recycled Resysta. Visually similar to wood, the material is more sustainable: Its structure makes it resistant to external influences such as sun, rain, snow, or seawater.

Powder-coated aluminum impresses with durability, corrosion resistance, and a flawless appearance. The robust coating is scratch-resistant, UV-resistant, and easy to maintain, making it ideal for outdoor use. Additionally, it is environmentally friendly and recyclable. The recycling process requires only about 5% of the energy needed to produce new aluminum.

Stainless Steel Brushed Stainless Steel Gold
The high-quality garden furniture in metal design made from
stainless steel is lightweight yet robust. We offer them in matte

brushed or with a gold-colored special coating. Furniture made from stainless steel is permanently weather-resistant, rust-free, and also easy to maintain. Steel has the oldest recycling cycle in the world.

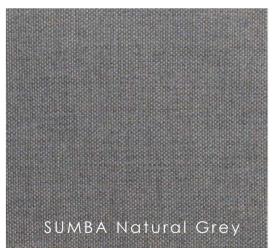

MBM Rope is an extremely durable climbing rope specially designed for outdoor use. The material is UV-stable, tear-resistant, and resistant to moisture, mold, and temperature fluctuations. It offers high seating comfort due to its flexible stability and pleasant texture. It combines functionality with modern design, making it a perfect match for high-quality outdoor furniture.

MBM Tex is an extremely strong outdoor fabric with high tear resistance. It is UV- and weather-resistant as well as water-repellent, making it ideal for outdoor use. Additionally, it does not heat up in the summer sun and is breathable, which enhances seating comfort.

MBM Strap is a handcrafted, wide, and comfortable fabric made from 100% high-quality polymer material, which is indistinguishable from a natural fiber in both appearance and texture. It features a modern herringbone design in natural greige tones. The material is weather-resistant, durable, and easy to maintain, making it ideal for outdoor use.

The durable outdoor fabric is breathable, UV- and weather-resistant. It feels pleasantly natural and quickly wicks away any moisture, allowing the seating area to be used again swiftly. Additionally, the material is certified with multiple environmental standards.

Table tops made from MBM Ceramor are produced through sintering and impress with their hardness, frost, and heat resistance. The sintering technology fuses natural raw materials at extreme temperatures, giving the ceramic durability and a dirt-repellent surface. Cleaning is effortless, simply using a cloth and water.

#### OUTDOOR FABRICS FOR THE HIGHEST DEMANDS

Imagine your cushions being just as weather-resistant as your furniture. That's exactly what we guarantee with our MBM technology. Our cushions are not only water-repellent but also have high UV and light resistance. This means for you: durability, time savings, and maximum seating comfort.

These fabrics are made of 100% Olefin, a material renowned for its excellent suitability for outdoor use. With a weight of 230 g/m², these fabrics offer an ideal balance between durability and comfort.

All our fabrics are characterized by their high resistance to weather conditions. They are resistant to moisture and mold growth, making them particularly long-lasting. In addition, they provide effective protection against UV radiation, ensuring the colors stay vibrant even under intense sunlight. They are also known for their environmentally friendly properties, manufactured with minimal use of chemicals, and fully recyclable. Moreover, the production is energy-efficient, reducing the ecological footprint.

With their high abrasion resistance, these fabrics are perfect for daily use. The fabrics are also easy to clean.

#### EASY CARE USE

After a rain shower, it is usually sufficient to shake or All cushions labeled "Outdoor" are equipped with our tap the cushions to remove the water from the proven Membrano technology. This technology was surface. The foam core is well-protected, so it cannot specially developed for outdoor cushions to ensure absorb water. The zippers are high-quality and maximum comfort and durability. It combines a designed around the corners to make core breathable special fabric with high-frequency welded replacement - for example, for washing - extremely seams. On the underside of the cushions, there is a simple.

After several washes and frequent wet brushing, the pressure (from sitting) is applied. fabric should be re-waterproofed to maintain its water-repellent properties. For longer periods of rain Thanks to the Membrano technology, the cushions are or during winter, we recommend storing the cushions ont only easy to care for and weather-resistant, but dry, as seam closures cannot be 100% sealed. This they also retain their shape over time. This makes way, you can use and enjoy your cushions as soon as them the ideal choice for outdoor use, as they can the first rays of sunshine appear.

OUTDOOR

breathable membrane that ensures optimal ventilation and allows air to quickly escape when

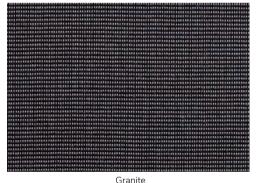

withstand various weather conditions while providing maximum seating comfort.

Sunbrella Ecru can be perfectly combined with any piece of furniture due to its light natural color. Made of 100% acrylic fiber, this fabric has an exceptionally strong structure.

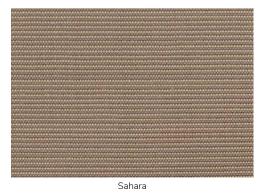

Sunbrella Ecru

Simple, stylish, and at the same time exceptional that's what the Granite cushions made of highquality MBM Olefin are. The fabric is slightly lighter than Sunbrella, but due to the stony structure of white and gray elements, it is highly resistant to dirt.

Kissed by the sun – this is the feeling the Sahara cushions made of high-quality MBM Olefin are meant to evoke. They beautifully accentuate the furniture, perfectly complementing the respective pieces
