»Summer is not a season,
but a way of life«

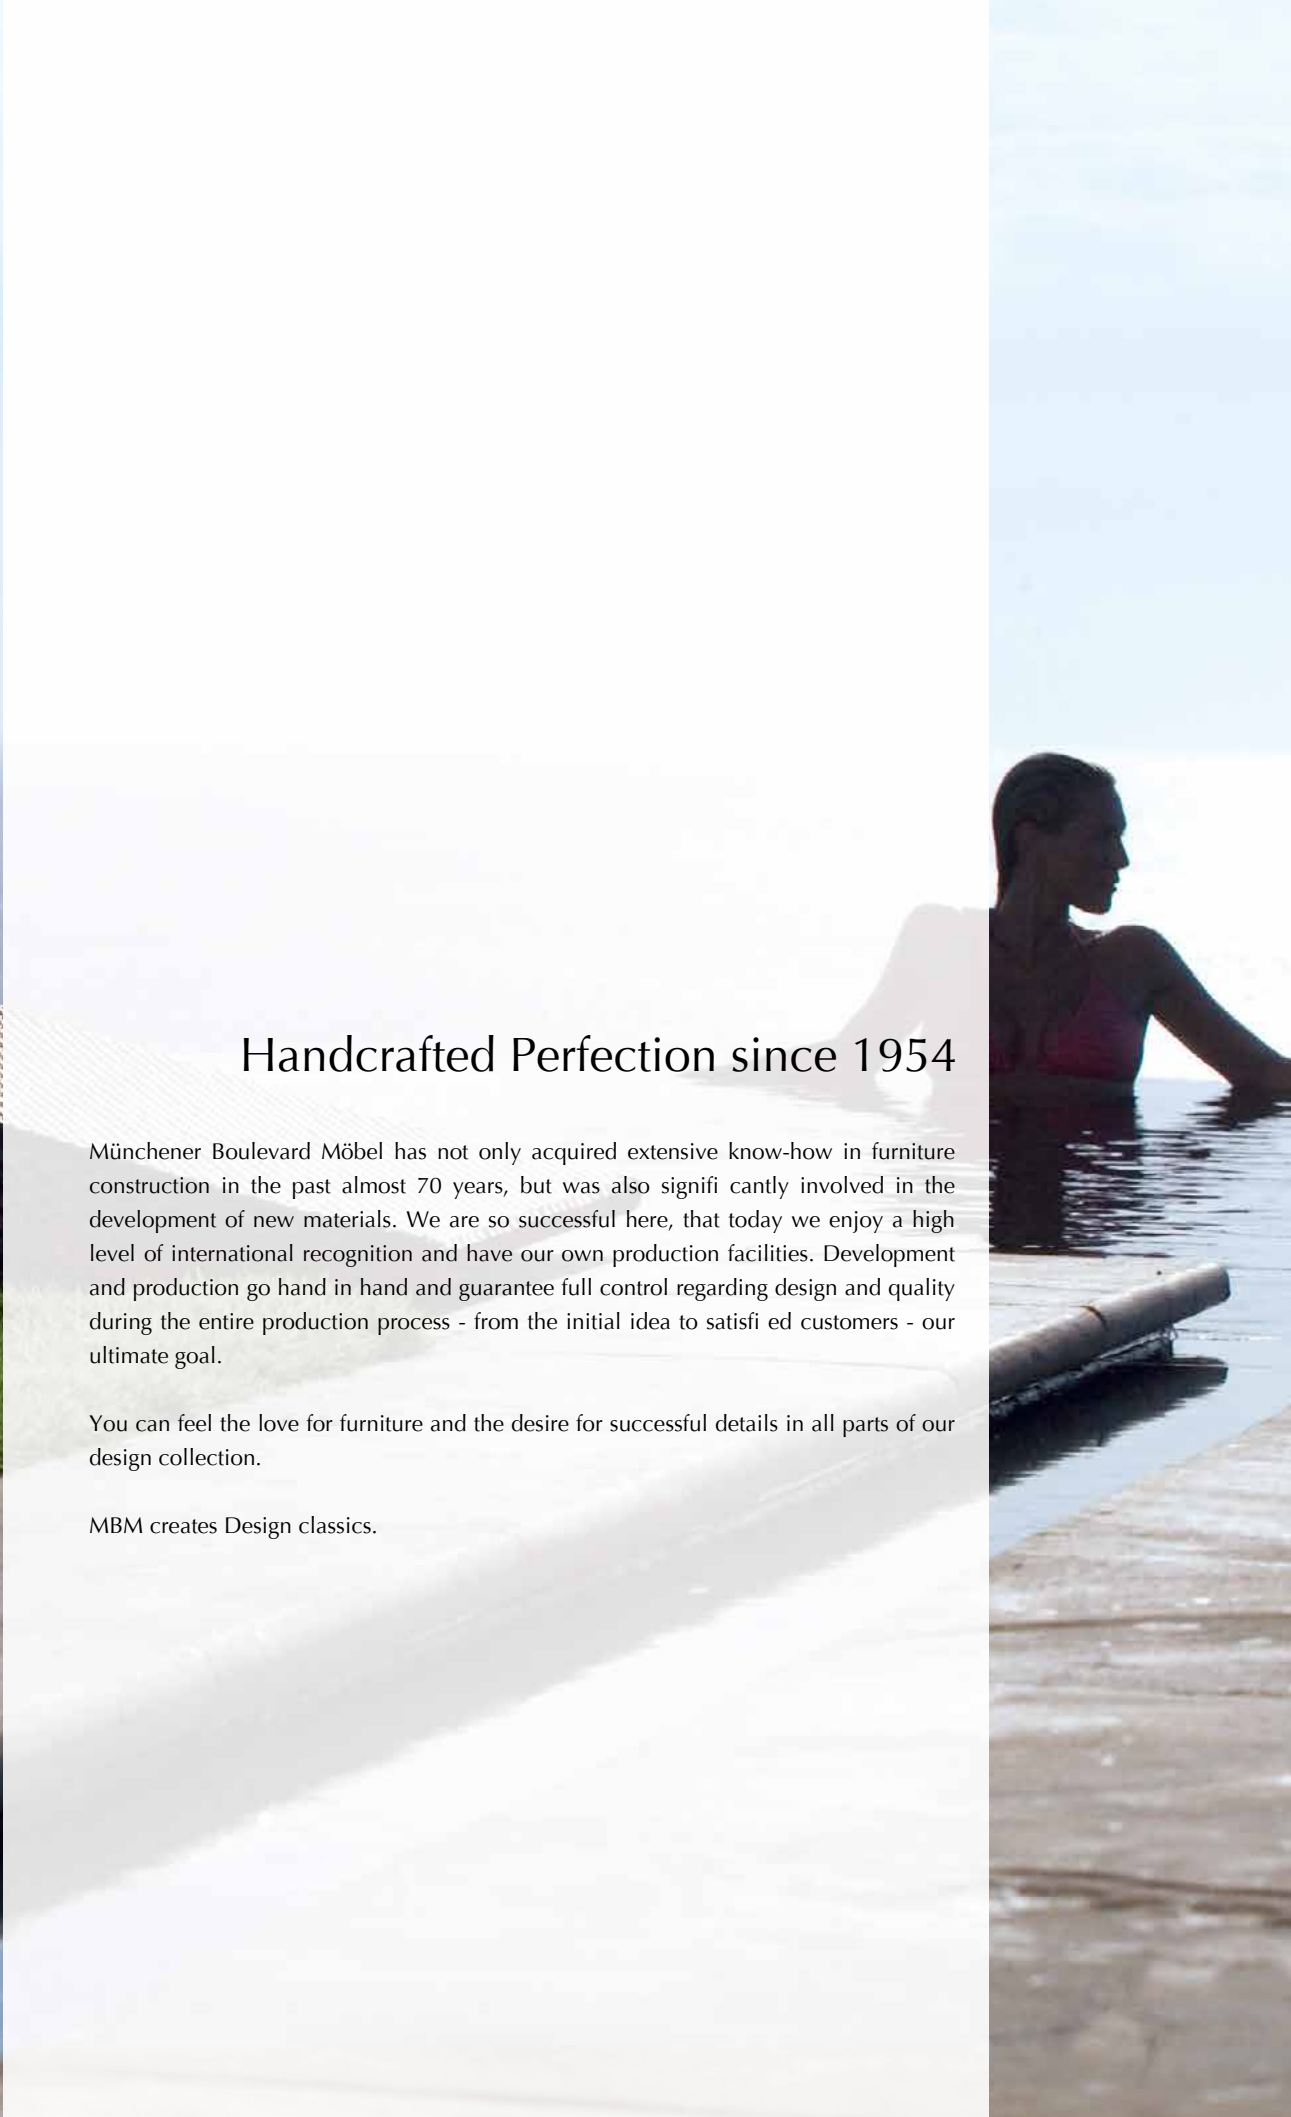

Handcrafted Perfection since 1954

Münchener Boulevard Möbel has not only acquired extensive know-how in furniture construction in the past almost 70 years, but was also significantly involved in the development of new materials. We are so successful here, that today we enjoy a high level of international recognition and have our own production facilities. Development and production go hand in hand and guarantee full control regarding design and quality during the entire production process - from the initial idea to satisfied customers - our ultimate goal.

You can feel the love for furniture and the desire for successful details in all parts of our design collection.

MBM creates Design classics.

Think in Material Cycles

To some extent they already exist, but sooner or later they will become standard: in development and production of all sorts of products or even buildings, materials that can be used over and over again become increasingly important, or will become the only materials allowed. Mankind is currently consuming too many raw materials - the earth can hardly keep up with the »production« of these raw materials. At MBM we do our best to meet these requirements. Currently, the bigger part of the materials we use can be recycled already. As far as product design is concerned, we make sure that the separation of materials is as simple as possible to facilitate the recycling process. Because, if it is easy, more companies, institutions and above all, people are prepared to get involved. We are working day by day to get even better and to offer products that will save our resources - not only today but also tomorrow.

We are looking forward to take responsibility with you for a sustainable future.

Exclusive Garden Furniture

Everyone has their favorite spot

A garden, terrace, or balcony are more than just spaces – they are living areas, retreats, places for special moments. The art of holistic garden design lies in its harmony: Carefully coordinated dining and lounge furniture gives these spaces the elegance of a living room, combined with the freedom of outdoor living.

At MBM, we focus on values that stand the test of time – using innovative, weather-resistant materials like Resysta, the teak alternative. This not only sets aesthetic accents but also promises sustainability and durability. Whether expansive open spaces or intimate retreats, our collections are a love letter to outdoor living and oases of relaxation. Fine details, elegant design, and uncompromising quality create individual solutions for every style and need.

Dive into the world of Münchener Boulevard Möbel and experience garden furniture that withstands time and weather – with a feeling of home under the open sky.

We are repeatedly awarded for design and quality.

Alpenblick

Deserved Enjoyment

The shapes and elements of Alpenblick were inspired more by a feeling. Imagine sitting on a green meadow or a terrace with a view of the Alps. The sky is blue, the sun is shining, and you've just returned from a hike, enjoying a well-deserved drink while taking in the breathtaking scenery. This moment of complete balance and relaxation is exactly what Alpenblick was created for.

Nordlicht

Across all seas

With Nordlicht, the sleek lines of Scandinavian design are clearly evident. Maritime elements are also incorporated. The top edge of the chair, for example, feels as pleasantly smooth to the touch as the railing of a yacht or cruise ship. One can easily imagine these pieces of furniture in a modern yacht club.

Madrigal

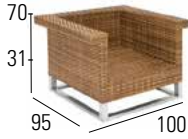

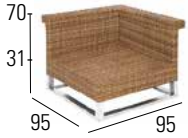

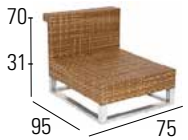

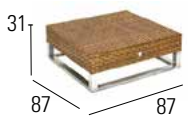

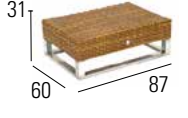

Perfect Harmony

Music served as the inspiration for this extravagant furniture line. In a madrigal, a polyphonic vocal piece, many voices form a harmonious sound. Similarly, everything just comes together in our Madrigal collection. The mix of materials – Mirotex weave and hand-polished aluminum – the minimalist lounge design with the naturally graceful texture of the weave, and a leather/wood look that shimmers in warm shades of tobacco and cognac.

Lounge Cushions

You can choose between back cushions and wedge back cushions. While the back cushions fit any part of the lounge, the wedge cushions require the corresponding variants for the specific width of the seating furniture. Additionally, there are left or right side cushions available for the corner module, which you can choose depending on your needs.

For all furniture and cushions labeled as "left" or "right," the reference point is taken from the front of the furniture.

Madrigal Relax Lounge

A Special Way to Enjoy

The Relax Lounge in Mirotex Tobacco has an almost sculptural quality. As a standalone piece, it gives any setting a unique character. At the same time, it creates a relaxed atmosphere and adds an elegant touch to its surroundings. With the built-in bar and stationary umbrella base, it is a self-sufficient gem in any environment.

Lounge Cushions

You can choose between back cushions and wedge back cushions. While the back cushions fit any part of the lounge, the wedge cushions require the corresponding variants for the specific width of the seating furniture. Additionally, there are left or right side cushions available for the corner module, which you can choose depending on your needs.

For all furniture and cushions labeled as "left" or "right," the reference point is taken from the front of the furniture.

Bellini Love Lounge

Baroque Splendor, Made Modern

Lavishly beautiful, extravagantly magnificent, unbelievably comfortable. Some are struck with admiration at the sight of it, whether it's used as an extravagant bedroom piece, a striking addition to the garden, or perhaps even as a romantic love nest. One thing all observers agree on, however, is this: here, dreams become reality.

Lounge Rondell Fino

Ready for the Island

An island of tranquility in the sea of hectic everyday life – that's our Lounge Rondell Fino. It caresses both the body and the soul, making many short getaways simply unnecessary. The matching pendulum umbrella provides shade during the day and gives Fino an even more extraordinary look. So, you're relaxing in a true design object.

Conca

Elemental Power

To call the Conca lounge a piece of furniture would be an understatement. It is, in fact, a work of art. With its organically curved form, it mimics the silhouette of a Conca, or shell. Wave-like – as if shaped by water – it appears naturally grown and irresistibly invites you to linger. The footrest adds to the optimal comfort: it is three-way adjustable and conceals hand-polished aluminum feet, which are only revealed when you unfold them.

Lounge Wellness

A Little Spa, Perhaps?

The Wellness Mokka lounge lives up to what its design and name promise: its curved shape offers pure relaxation – especially when paired with the cushion. With its calm lines and elegantly simple design that radiate peace and comfort, it is also perfect for use in your very own wellness area: create your personal corner for rest and relaxation.

Heaven Swing

Sway – Float – Indulge

A floating lounge for truly relaxing moments. The particularly robust aluminum frame ensures a secure stand. The handwoven double lounge provides a comfortable feeling of well-being. With a simple adjustment, the reclining position can be individually adjusted.

Heaven Swing

Full of Good Qualities

A true all-round genius – our Heaven Swing. Packed to the top with great features and a variety of customization options. For example, you can choose from three different frame colors, four Mirotex weaves, and three cushion colors. As an alternative to the freestanding frame, we also offer mounting crosses for ceiling installation. Both the double and single lounges are ergonomically shaped for your perfect relaxation and can be adjusted infinitely with a simple movement. A sun canopy can be attached in the simplest way. Of course, the Heaven Swing can be used both outdoors and indoors.

HEAVEN SWING

Material	Frame					Mounting Cross										
Our hanging loungers, Heaven Swing, are available in four different weaving colors, with two different textures. The extremely durable Mirotex fiber, a high-tech material specially made for MBM, withstands wind and weather all year round. The frames are all made of powder-coated aluminum, which we offer in four different finishes. Robust, lightweight, and weather-resistant.																
A special feature is the two mounting crosses, which are made of solid ash wood.

Being more comfortable while lying down, in the garden or wellness area, is hardly possible. Our high-tech fiber Mirotex is traditionally woven around a slim aluminum frame. The lying surface already has a body-conforming shape, offering a balance between reclining and relaxed sitting. The reduced design is subtle and unobtrusive. With our generously sized cushions, comfort is further enhanced. For the double loungers, you can also add a very slim sun canopy to the attachment ropes if desired.

Manhattan

The Allrounders

Manhattan furniture has been a part of our collection for many, many years. And there are several good reasons for that. On the one hand, they are made of aluminum, making them nearly indestructible, and on the other hand, incredibly lightweight. The Textilene upholstery is breathable and comfortably molds to the body. And now, another advantage is added: The tabletops are made of Resysta, which is also very light and, perhaps even better, absolutely weather-resistant.

Victory

The Winner

Natural ambiance and an elegant look are no longer exclusions for absolute weather resistance and minimal maintenance. The MBM Victory collection, made of Resysta, combines all these qualities with timeless design. These pieces simply do what you expect from them: last for a long time, always look great, and require little effort to maintain.

Victory

Visual Highlight from One Piece

The Victory tabletop series complements many different styles and can easily be integrated into an existing setting. The special surface finish and the subtly placed joint give the tabletops a beautiful texture. The material is made using the new ecoplus3 Resysta technology. As a result, the tabletops are cast from a single piece but are still very lightweight.

Parasols

Always Well Covered

MBM parasols have always been a guarantee for a pleasant garden climate. Comfortable to handle and elegant in design. High-quality, in line with this philosophy: the Sunrise parasols. In addition to a double rope lift, they feature high-quality stainless steel safety hooks and exceptionally stylish design runners. The mast and the end of the ribs are encased in aluminum, and each rib is individually replaceable.

Our Materials

MBM outdoor materials combine functionality, durability, and style. They are weather-resistant, easy to care for, and environmentally friendly, making them perfect for year-round outdoor use. High-quality craftsmanship, the careful selection of raw materials, and recyclable components ensure that, along with appealing design and long-lasting durability, they also contribute to a high level of sustainability.

Resysta

Durable Luxury for Outdoors: Furniture from the Resysta collection is made from a sustainable alternative to tropical wood. It consists of about 60% rice husks and the remainder from already recycled materials. Visually, the material resembles wood, but it is more sustainable: its structure makes it resistant to external influences such as sun, rain, snow, or saltwater.

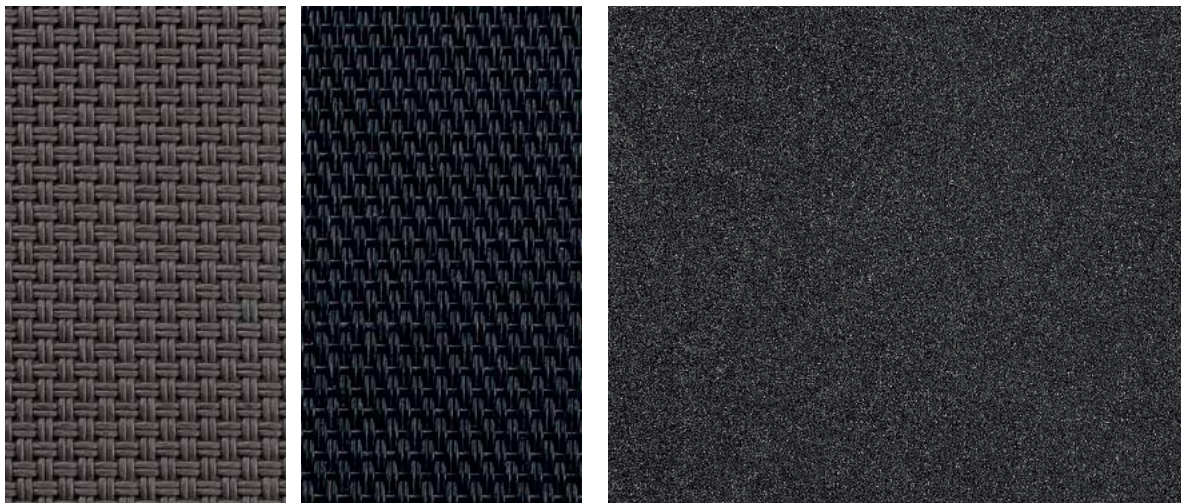

Mirotex Twist

Mirotex Twist is a high-quality, high-tech fiber exclusively manufactured for MBM, designed to resemble water hyacinth. It gives the furniture a natural look and feel. The material is extremely durable, UV-resistant, and weatherproof, making it ideal for outdoor use. Mirotex Twist is available in two appealing colors: Natural and Oyster.

Mirotex

Mirotex is a high-quality, high-tech fiber exclusively manufactured for MBM. The material is extremely durable, UV-resistant, and weatherproof, making it ideal for outdoor use. The individual furniture pieces are woven using a traditional weaving technique with a continuous fiber over a high-quality aluminum frame.

MBM Tex

MBM Tex is an extremely strong outdoor fabric with high tear resistance. It is UV- and weather-resistant, water-repellent, and dimensionally stable, making it ideal for outdoor use. Additionally, it doesn't heat up in the summer sun and is breathable, which enhances seating comfort. Choose between the colors Taupe and Black.

Wrought Iron

MBM Wrought Iron is hand-forged and double-galvanized. Thanks to the high-quality powder coating with special color pigments that are baked at 225°C, the surface is not only very striking and elegant but also absolutely weather-resistant and durable.

Aluminium

Powder-coated aluminum impresses with its durability, corrosion resistance, and flawless appearance. The robust coating is scratch-resistant, UV-resistant, and easy to maintain, making it ideal for outdoor use. For the frames, we use polished aluminum.

Stainless Steel

The high-quality garden furniture in a metal design made from matte brushed stainless steel is lightweight yet robust. Stainless steel furniture is permanently weather-resistant, rust-free, and also easy to maintain. Steel has the oldest recycling cycle in the world.

Outdoor Fabrics for the Highest Demands

Imagine your cushions being just as weather-resistant as your furniture. That’s exactly what we guarantee with our MBM technology. Our cushions are not only water-repellent but also have high UV and light resistance. This means for you: durability, time savings, and maximum seating comfort.

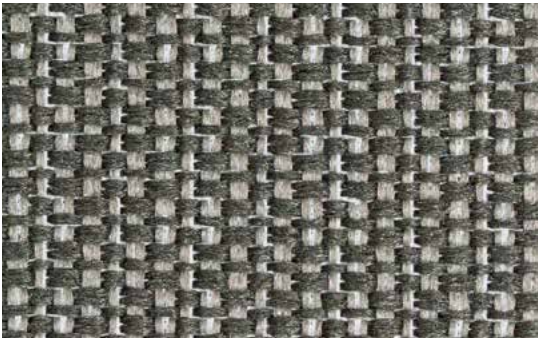

These fabrics are made of 100% Olefin, a material renowned for its excellent suitability for outdoor use. With a weight of 230 g/m², these fabrics offer an ideal balance between durability and comfort.

All our fabrics are characterized by their high resistance to weather conditions. They are resistant to moisture and mold growth, making them particularly long-lasting. In addition, they provide effective protection against UV radiation, ensuring the colors stay vibrant even under intense sunlight. They are also known for their environmentally friendly properties, manufactured with minimal use of chemicals, and fully recyclable. Moreover, the production is energy-efficient, reducing the ecological footprint.

With their high abrasion resistance, these fabrics are perfect for daily use. The fabrics are also easy to clean.

Easy Care Use

After a rain shower, it is usually sufficient to shake or tap the cushions to remove the water from the surface. The foam core is well-protected, so it cannot absorb water. The zippers are high-quality and designed around the corners to make core replacement – for example, for washing – extremely simple.

After several washes and frequent wet brushing, the fabric should be re-waterproofed to maintain its water-repellent properties. For longer periods of rain or during winter, we recommend storing the cushions dry, as seam closures cannot be 100% sealed. This way, you can use and enjoy your cushions as soon as the first rays of sunshine appear.

Sunbrella Ecrú can be perfectly combined with any piece of furniture due to its light natural color. Made of 100% acrylic fiber, this fabric has an exceptionally strong structure.

Simple, stylish, and at the same time exceptional – that’s what the Granite cushions made of high-quality MBM Olefin are. The fabric is slightly lighter than Sunbrella, but due to the stony structure of white and gray elements, it is highly resistant to dirt.

Kissed by the sun – this is the feeling the Sahara cushions made of high-quality MBM Olefin are meant to evoke. They beautifully accentuate the furniture, perfectly complementing the respective pieces.

Outdoor

All cushions labeled "Outdoor" are equipped with our proven Membrano technology. This technology was specially developed for outdoor cushions to ensure maximum comfort and durability. It combines a breathable special fabric with high-frequency welded seams. On the underside of the cushions, there is a breathable membrane that ensures optimal ventilation and allows air to quickly escape when pressure (from sitting) is applied.

Thanks to the Membrano technology, the cushions are not only easy to care for and weather-resistant, but they also retain their shape over time. This makes them the ideal choice for outdoor use, as they can withstand various weather conditions while providing maximum seating comfort.

Cuddle Pillow

OUR FURNITURE IS
READY FOR SUN,
RAIN, AND SNOW!

COVER

Easy to maintain—for permanently beautiful furniture **Additional protection for all situations.**

Our furniture is designed to withstand all outdoor challenges. Rain, snow, frost, or UV rays – none of these pose a threat to our high-quality materials. They easily endure a Central European winter without fading, splintering, or cracking.

However, like any item exposed to the elements, our furniture also requires a bit of attention to maintain its original beauty. Even the best materials can be affected in appearance by environmental factors such as dirt, pollen, or leaves – much like a car that’s parked under a tree for a few summer days.

While our furniture does not require special care, we recommend cleaning it occasionally with a damp cloth or a mild soap solution. This minimal effort ensures that your furniture will still look as beautiful as the day you fell in love with it, even after many years.

For stubborn dirt (such as honeydew or bird droppings), we recommend our special cleaner. It is perfectly suited for cleaning and maintaining Resysta surfaces and is versatile enough for use on almost all surfaces, such as metal, plastic, wood, stone, ceramic, porcelain, and painted surfaces. In case of doubt, test the compatibility on an inconspicuous area. We recommend cleaning the furniture at the end of each season.

A suitable location can also help protect your furniture optimally. Special care should be taken when placing it under a tree that provides shade or near plants to avoid stubborn stains.

MBM furniture is designed to withstand the elements – weather-resistant, durable, and built for year-round outdoor use. However, to ensure your furniture stays in top condition for the long term, our protective covers provide optimal additional protection. Whether it's a brief summer rain, autumn leaf storms, or the long winter pause: Our high-quality covers reliably protect against moisture, dirt, and dust.

Thoughtful protection in all weather conditions.

Our protective covers are made from a PU-coated textile fabric that is not only water-resistant but also breathable. This keeps your outdoor oasis clean and dry throughout the year. Another advantage: the material is extremely easy to care for and can be machine washed at up to 30°C.

Important for proper use:

Before covering your furniture, both the furniture and the covers should be completely dry. Depending on the weather and location, condensation may form under the cover. To prevent this, we recommend ventilating the covers regularly on sunny days, even during the cold season. Allow the furniture to dry thoroughly before putting the covers back on. This will prevent moisture damage and ensure that your furniture remains well-ventilated.

With the cover caps from Münchener Boulevard Möbel, your garden furniture landscape remains not only protected but also ready for the next season – clean, dry, and as beautiful as on the first day. Because good furniture deserves the best protection.

We know our collections down to the smallest detail and provide not only expert advice but also genuine passion for our products—because our employees truly know what they’re doing. Benefit from our decades of experience in manufacturing high-quality garden furniture. We know our collections down to the smallest detail and provide not only expert advice but also genuine passion for our products—because our employees truly know what they’re doing.

For 70 years, we have been a reliable partner for garden and patio furniture, building long-lasting customer relationships. If our products show minor signs of wear over the years, we offer a wide range of Care & Maintenance products to help you enjoy your furniture even longer.

If you need a spare part for your favorite piece of furniture, feel free to contact us. Thanks to our timeless collections, we can often provide spare parts even for older products or offer you suitable solutions.

DURABLE & SUSTAINABLE

You have high standards for exclusive garden furniture – and so do we! Our product portfolio meets the highest material standards to ensure long-lasting enjoyment of your furniture. UV and weather resistance are absolute must-haves in our material selection.

SUSTAINABILITY TAKES PRIORITY

Sustainability has been a central focus for us for many years. Especially with furniture made from our innovative design material Resysta, the teak alternative, we combine environmental consciousness with outstanding quality. This material offers the look and feel of wood, yet it is sustainable, recyclable, and completely free of wood components.

Sustainable and Economical Solutions Hospitality, Gastronomy, Wellness

Our MBM furniture feels just as much at home on the great boulevards of the world as it does in exclusive hotels, on luxurious yachts, or at the trendiest golf courses. For architects, planners, and restaurateurs who have already chosen products made from Resysta, the key factor was the high economic efficiency — thanks to the exceptional durability and minimal maintenance requirements.

Our furniture for your project simply does what good hospitality furniture is expected to do: look good, last long, and require little maintenance.

And because MBM furniture made from Resysta not only lasts an exceptionally long time but is also recyclable, decision-makers who opt for Resysta furniture demonstrate not only economic savvy but also a commitment to the sustainable use of resources.

MBM Diversity

The Bayerischer Hof in Kempten has existed as an accommodation establishment since the Middle Ages and has been family-owned for over 100 years. Since then, the family has done only the best for their guests. The modern boutique hotel naturally extends this philosophy to the design of its beautiful, inviting outdoor areas with several terraces. Here, you'll find many different MBM styles harmoniously side by side.

Bayerischer Hof Kempten

»Summer is not a season,
but a way of life«
